SAFETY DATA SHEET

1. Identification

Product identifier	1522 - 1566 Steel
Other means of identification	
SDS number	WS003
Recommended use	Not available.
Recommended restrictions	None known.
Manufacturer/Importer/Supplier/I	Distributor information
Manufacturer/Supplier	The Worthington Steel Company
Address	200 Old Wilson Bridge Road
	Columbus, OH 43085
	United States
Email:	steel@worthingtonindustries.com
Telephone Number:	800-944-3733
CHEMTREC - 24 HOURS:	Within US: 800-424-9300 International: +1 703-741-5970
	(collect calls accepted)

2. Hazard(s) identification

Physical hazards	Not classified.
Health hazards	Not classified.
OSHA defined hazards	Not classified.
Label elements	
Hazard symbol	None.
Signal word	None.
Hazard statement	None.
Precautionary statement	
Prevention	Observe good industrial hygiene practices.
Response	Wash thoroughly after handling.
Storage	Store away from incompatible materials.
Disposal	Dispose of waste and residues in accordance with local authority requirements.
Hazard(s) not otherwise classified (HNOC)	Molten material will produce thermal burns.

3. Composition/information on ingredients

Substances

Chemical name	Common name and synonyms	CAS number	%
Iron		7439-89-6	96-98
Manganese		7439-96-5	0-1.7
Carbon		7440-44-0	0-1.1
Chromium		7440-47-3	0-0.5
Silicon		7440-21-3	0-0.4
Nickel		7440-02-0	0-0.15
Aluminium		7429-90-5	0-0.1

Molybdenum	7439-98-7	0-0.1
Titanium	7440-32-6	0-0.1
Sulfur	7704-34-9	0-0.05
Phosphorus	7723-14-0	0-0.04
Boron	7440-42-8	0-0.02
Vanadium	7440-62-2	0-0.02
Lead	7439-92-1	0-0.01

Composition comments

All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

4. First-aid measures

Inhalation	Contact with dust or fume: Immediately remove from further exposure. Get immediate medical assistance. For those providing assistance, avoid exposure to yourself or others. Use adequate respiratory protection. Give supplemental oxygen, if available. If breathing has stopped, assist ventilation with a mechanical device or use mouth-to-mouth resuscitation.
Skin contact	Wash with soap and water. Get medical attention if irritation develops and persists. Thermal burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Seek medical attention for severe cuts or abrasions.
Eye contact	Rinse immediately with plenty of water for at least 15 minutes. Remove any contact lenses. Get medical attention if irritation develops or persists.
Ingestion	Contact with dust: Immediately rinse mouth and drink a cupful of water. Never give anything by mouth to a victim who is unconscious or is having convulsions. Only induce vomiting at the instruction of medical personnel. Get medical attention immediately.
Most important symptoms/effects, acute and delayed	Dust and fumes may irritate eyes, skin and upper respiratory tract. Contact with molten material may cause thermal burns.
Indication of immediate medical attention and special treatment needed	Treat symptomatically. Exposure may aggravate pre-existing respiratory disorders. Symptoms may be delayed.
General information	Show this safety data sheet to the doctor in attendance.
5. Fire-fighting measures	
Suitable extinguishing media	Extinguish with foam, carbon dioxide or dry powder.
Unsuitable extinguishing media	Do not use water or halogenated extinguishing media.
Specific hazards arising from the chemical	Fire or high temperatures create: Metal oxides.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	Move containers from fire area if you can do it without risk.
General fire hazards	Solid metal is not flammable; however, finely divided metallic dust or powder may form an explosive mixture with air.
6. Accidental release meas	sures

Personal precautions,
protective equipment and
emergency proceduresKeep unnecessary personnel away. Avoid inhalation of dust from the spilled material. Wear
protective clothing as described in Section 8 of this SDS. Do not touch damaged containers or
spilled material unless wearing appropriate protective clothing.Methods and materials for
containment and cleaning upPick up mechanically. For a dry material spill, use a HEPA (high efficiency particle air) vacuum to
collect material and place in a sealable container for disposal. Avoid dust formation. Recover and
recycle, if practical. Keep out of water supplies and sewers.Environmental precautionsPrevent further leakage or spillage if safe to do so. Do not contaminate water.
If release occurs in the U.S. and is reportable under CERCLA Section 103, notify the National
Response Center at (800)424-8802 (USA) or (202)426-2675 (USA).

7. Handling and storage

Precautions for safe handling

Wear appropriate personal protective equipment (See Section 8). Keep formation of airborne dusts to a minimum. Provide appropriate exhaust ventilation at places where dust is formed. Avoid inhalation of dust and fumes. Avoid contact with skin and eyes. Avoid contact with sharp edges and hot surfaces. Do not get this material on clothing. Do not eat, drink or smoke when using the product. Wash thoroughly after handling. Follow the recommendations in ANSI Z49.1, Safety in welding and cutting (ANSI=American National Standard Institute). Steel products are massive and care must be taken to prevent them from falling, rolling or tipping on objects in their path.

Conditions for safe storage, including any incompatibilities

Store away from incompatible materials.

8. Exposure controls/personal protection

Occupational exposure limits

9. Physical and chemical properties

Appearance	
Physical state	Solid.
Form	Solid.
Color	Gray.
Odor	Odorless.
Odor threshold	Not available.
рН	Not applicable.
Melting point/freezing point	2400 - 2800 °F (1315.56 - 1537.78 °C)
Initial boiling point and boiling range	Not applicable.
Flash point	Not applicable.
Evaporation rate	Not available.
Evaporation rate Flammability (solid, gas)	Not available. Not available.
•	Not available.
- Flammability (solid, gas)	Not available.
Flammability (solid, gas) Upper/lower flammability or exp Flammability limit - lower	Not available. Iosive limits
Flammability (solid, gas) Upper/lower flammability or exp Flammability limit - lower (%) Flammability limit - upper	Not available. Iosive limits Not applicable.

Vapor pressure	Not applicable.
Vapor density	Not applicable.
Relative density	7.5 - 8.5
Solubility(ies)	
Solubility (water)	Not soluble in water.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not applicable.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Percent volatile	0

10. Stability and reactivity

Reactivity	The product is non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	Hazardous polymerization does not occur.
Conditions to avoid	Contact with incompatible materials. Avoid molten metal contact with water.
Incompatible materials	Acids. Bases. Strong oxidizing agents.
Hazardous decomposition products	Toxic metal oxides are emitted when heated above the melting point.

11. Toxicological information

Information on likely routes of exposure

Inhalation	Elevated temperatures or mechanical action may form dust and fumes which may be irritating to the mucous membranes and respiratory tract. Lung damage and possible pulmonary edema can result from dust exposure. Inhalation of fumes may cause a flu-like illness called metal fume fever.
Skin contact	Dust may irritate skin. Contact with molten material may cause thermal burns.
Eye contact	Elevated temperatures or mechanical action may form dust and fumes which may be irritating to the eye.
Ingestion	Ingestion of dusts generated during working operations may cause nausea and vomiting.
Symptoms related to the physical, chemical and toxicological characteristics	Elevated temperatures or mechanical action may form dust and fumes which may be irritating to the eye, mucous membranes and respiratory tract. Contact with molten material may cause thermal burns.

Information on toxicological effects

Acute toxicity	When heated, the vapors/fumes given off may cause respiratory tract irritation. High concentrations of freshly formed fumes/dusts of metal oxides can produce symptoms of metal fume fever.

Respiratory or skin sensitization	,			
Respiratory sensitization	No sensitizing effects known.			
Skin sensitization	No sensitizing effects known. Prolonged contact with metallic dust or fumes may cause an allergic skin reaction in sensitized individuals.			
Germ cell mutagenicity	No data available.			
Carcinogenicity				
ouromogeniony	Suspected of causing cancer. The International Agency for Research on Cancer (IARC). The National Toxicology Program (NTP) and OSHA do not list steel products as carcinogens. Steel products contain alloying elements and/or residual elements that are suspected or confirmed human carcinogens (e.g. chromium, nickel). IARC identifies welding fumes as a group 2B carcinogen, a mixture that is possibly carcinogenic to humans. Welding fumes are difficult to classify because the composition and quantity are dependent upon the alloy being welded, electrodes used, and process.			
IARC Monographs. Overall I	Evaluation of Carcinogenicity			
Chromium (CAS 7440-47		3 Not classifiable as to carcinogenicity to humans.		
Lead (CAS 7439-92-1)	,	2B Possibly carcinogenic to humans.		
Nickel (CAS 7440-02-0)	2B Possibly carcinogenic to humans.			

NTP Report on Carcinogens	3		
Lead (CAS 7439-92-1) Nickel (CAS 7440-02-0)	Reasonably Anticipated to be a Human Carcinogen. Reasonably Anticipated to be a Human Carcinogen.		
OSHA Specifically Regulate	d Substances (29 CFR 1910.1001-1050)		
Not listed.			
Reproductive toxicity	Suspected of damaging fertility or the unborn child.		
Specific target organ toxicity - single exposure	May cause irritation of respiratory tract.		
Specific target organ toxicity - repeated exposure	Causes damage to organs () through prolonged or repeated exposure.		
Aspiration hazard	Not relevant, due to the form of the product.		
Chronic effects	Prolonged and repeated overexposure to dust can lead to benign pneumoconiosis. Chronic exposure to breathing low levels of manganese dust or fume over a long period of time can result in "manganism," a disease of the central nervous system similar to Parkinson's Disease, gait impairment, muscle spasms and behavioral changes.		
Further information	Steel products may be coated with oil based products to prevent rust. Rust preventive oils are generally applied at customer request and usually contains severely hydrotreated light and heavy naphthenic oils. Prolonged contact with rust preventive oil may cause dermatitis.		

12. Ecological information

Components		Species	Test Results
Phosphorus (CAS 772	23-14-0)		
Aquatic			
Crustacea	EC50	Water flea (Daphnia magna)	0.025 - 0.037 mg/l, 48 hours
Fish	LC50	Bluegill (Lepomis macrochirus)	0.002 - 0.006 mg/l, 96 hours
			0.001 - 0.004 mg/l, 96 hours

Persistence and degradability	The product is not biodegradable.
Bioaccumulative potential	No data available.
Mobility in soil	Alloys in massive forms are not mobile in the environment.
Other adverse effects	None expected.

13. Disposal considerations

Disposal instructions	Dispose in accordance with all applicable regulations.
Local disposal regulations	Dispose of in accordance with local regulations.
Hazardous waste code	Not regulated.
Waste from residues / unused products	Dispose of in accordance with local regulations. Scrapped material should be sent for refining to recover precious metal content. Solid metal and alloys in the form of particles may be reactive. Its hazardous characteristics, including fire and explosion, should be determined prior to disposal.
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied.

14. Transport information

DOT

Not regulated as dangerous goods.

ΙΑΤΑ

Not regulated as dangerous goods.

IMDG

Not regulated as dangerous goods.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Sulfur (CAS 7704-34-9) Vanadium (CAS 7440-62-2)

US. New Jersey Worker and Community Right-to-Know Act

Aluminium (CAS 7429-90-5) Boron (CAS 7440-42-8) Carbon (CAS 7440-44-0) Chromium (CAS 7440-47-3) Lead (CAS 7439-92-1) Manganese (CAS 7439-96-5) Molybdenum (CAS 7439-98-7) Nickel (CAS 7440-02-0) Phosphorus (CAS 7723-14-0) Silicon (CAS 7440-21-3) Sulfur (CAS 7704-34-9) Titanium (CAS 7440-32-6) Vanadium (CAS 7440-62-2)

US. Pennsylvania Worker and Community Right-to-Know Law

Aluminium (CAS 7429-90-5) Chromium (CAS 7440-47-3) Lead (CAS 7439-92-1) Manganese (CAS 7439-96-5) Molybdenum (CAS 7439-98-7) Nickel (CAS 7440-02-0) Phosphorus (CAS 7723-14-0) Silicon (CAS 7440-21-3) Sulfur (CAS 7704-34-9) Vanadium (CAS 7440-62-2)

US. Rhode Island RTK

Aluminium (CAS 7429-90-5) Chromium (CAS 7440-47-3) Lead (CAS 7439-92-1) Manganese (CAS 7439-96-5) Nickel (CAS 7440-02-0) Phosphorus (CAS 7723-14-0) Vanadium (CAS 7440-62-2)

US. California Proposition 65

US - California Proposition 65 - Carcinogens & Reproductive Toxicity (CRT): Listed substance

Lead (CAS 7439-92-1) Nickel (CAS 7440-02-0)

International Inventories

Country(s) or region	Inventory name	On inventory (yes/no)*
Australia	Australian Inventory of Chemical Substances (AICS)	Yes
Canada	Domestic Substances List (DSL)	Yes
Canada	Non-Domestic Substances List (NDSL)	No
China	Inventory of Existing Chemical Substances in China (IECSC)	Yes
Europe	European Inventory of Existing Commercial Chemical Substances (EINECS)	Yes
Europe	European List of Notified Chemical Substances (ELINCS)	No
Japan	Inventory of Existing and New Chemical Substances (ENCS)	No
Korea	Existing Chemicals List (ECL)	Yes
New Zealand	New Zealand Inventory	Yes
Philippines	Philippine Inventory of Chemicals and Chemical Substances (PICCS)	Yes
United States & Puerto Rico	Toxic Substances Control Act (TSCA) Inventory	Yes

*A "Yes" indicates this product complies with the inventory requirements administered by the governing country(s). A "No" indicates that one or more components of the product are not listed or exempt from listing on the inventory administered by the governing

country(s).
